

CISCO AP AND ACCELTEX OMNI ANTENNA ALL-THREAD DROP MOUNT

The AccelTex Solutions All-Thread Drop Mount provides a unique solution to mount a Cisco AP and an AccelTex Omni antenna in one location using All-Thread. The Cisco AP snaps into place by fitting the AP mounting feet into pre-defined keyholes in the mount and the antenna mounts through a slot in the side of the mount. This mount can be used to lower the height of the antenna and AP in a building with high ceilings or can even be placed above a suspended ceiling. All-Thread and fasteners not included.

Part Number: ATS-DRPMNT-CISCO1-00

> MECHANICAL SPECIFICATIONS

Dimensions: 12" L x 9.25" W x 4" H (304.8mm L x 234.95mm W x 101.6mm H)
